

ESTABLISHED 1859

A WEEKLY JOURNAL OF THE CHEMICAL AND DRUG TRADES

AND

BRITISH PHARMACISTS THROUGHOUT THE EMPIRE.

VOLUME LXXIV.

JANUARY TO JUNE, 1909.

HEAD OFFICE:

42 CANNON STREET, LONDON

BRANCH OFFICES:

ADELAIDE, MELBOURNE, AND SYDNEY, AUSTRALIA

PRINTED BY
SPOTTISWOODE AND CO., LTD., LONDON
COLCHESTER AND ETON

INDEX.

NOTE.—The Index is strictly alphabetical except in the case of "Legal Reports," which are classified under that heading.

- AARSÆTHER, B. (agents) 329
Aberdeen Pharmaceutical Association 233, 359, 456, 465, 586, 649, 918
— pharmacies, changes 770
Aberdeen Technical College 447
Abortifacients, supply 72, 102, Supp. January 30, 477, 500, 517
Acacia gum in Soudan 652, 889
Accounts for chemists 56, 181, 245, 314, 388, 953
Acetanilide mixtures, toxicity of 890
Acetic acid patent (law case) 142
— (Japan) Supp. January 23
Acetic ether test (B.P.) 289
Acetone, sources of supply 348
Acetum cantharidis (B.P. note) 288
Acetylene explosion 721
Acid mfr. in Canada 899
Acidol 329
Acids should be stored near floor 923
— (see specific names—e.g., Acetic)
Acme Soap Co., Ltd. (winding-up) 941
Aene, vaccine treatment 298, 786
Acocine 876
Aconitine 42
Aconitine assay processes 881, B.P. note 289
— poisoning Supp. February 13
— root, alkaloid in 426, 878
Adcock, R. (death) 453, (will) 673
Adrenalin, use of 422, (see also Suprarenal gland)
Adulteration Repression Congress (see International Congress for Repression of Adulteration)
Advertisement charges, recovering 897
— fraud, charges of 666, 698, 896
— by town-crier (France) 701
Advertisers' Protection Society 381
Advertising, art of ("Xrayser" on) 15
— censorship (Russia) 482
— at exhibitions 600
— experts, why employ Supp. June 19
— how to begin 228
— ideas ("Household hints") Supp. April 3, (weighing machine) 15, (chemical ink) 202, (election bill) 359
— mechanical models (exhibit) 724
— in newspapers 159
— optical, discussion 465
— for opticians 949
— papers on 110, 503
— the P. & P. Act (handbill) 265, (poster) 454, 456, (circular) 849
— proprietaries (Russell on) 21, 56, 88, 121, 159, 185, 228, 266, 335, 373, 415, 461, 494
— use of pamphlets 373
Aerated water booklet 260
— bottles (patent case) 362, (use of, for oils) 340
— hardening crystals 964
— mfr. (Prussia) 141, (cyclopedia) 164
— sale, competition 815
— waters in Ceylon 482, (purity of) 38
Aerators, Ltd. (greeting) 17, (booklet) 150, (advertising) 429, (whist drive) 505
Agency, traveller's promise (law case) 327
Agricultural chemicals, list of 514
— chemistry (books) Supp. Feb. 13, 812
— poisons (see Agri-horticultural poisons)
— requirements, to stock 863
— science (books) 316
Agri-horticultural poisons, advertising 518
— supply by chemists, 87, 122, 182, 235, 236, 300, 414, 424, 456, 700, 962, 977
Agri-horticultural poisons (see also Poison-licences)
Aguas Blanca Nitrato Co., Ltd. 364
Akakia 949
Alberta (see North-West Territories)
Albumen test, 152
— water, F.C. 190
Albuminometer, Esbach's 893
Alcohol, denatured (France) 215, (U.S.) 325, 773
— poisoning 619, 633
— tax (Germany) 242, 310, Supp. March 20, 385, (Japan) 669
— (see also Spirit)
Alcoholic fermentation investigation 14
Alcolat, formulae 24
Alcolatules, formulae 24
Alcemic Chemical and Drug Co. (exhibit) 462
Alloxin, secrets of (book) 194
Alum., red pigment of 560
Algeria, flora of (book) Supp. Feb. 13
— olive-oil exports 8
Alkali Act, annual report 979
Alkali, methyl red as indicator 93
Alkaloids, affinity values of 560
— and baux in mixture, precipitates, 124
— early mfr. 871
— and hexamethylene-tetramine in mixture (dispensing) 537
— plant production ("Xrayser" on) 903
Alkyl ethers, preparation of 495
Allan, D. S. (personal) 848
Allegro washing-gloves 759
Allen, C. B., on P. & P. Act 301
Allen & Hanburys, Ltd. (exhibit) Supp. Feb. 20, (greeting) 48, (inset) 146, (cricket club dinner) 253, (cod-liver oil), 257, (list) 428, (sauerin apparatus) 428, (exhibit) 462, (defrauded) 896, (stocktaking) 944, (outing) Supp. June 26, (stocktaking) 976
Allen & Hanburys (South America), Ltd. 591
Alliance Carbide Co., Ltd. 328
Alliance Drug and Chemical Co. (list) 12, (greeting) 17
Allison, J. R. B. ("How to Increase your Business") 724
Allkins, T. B., Ltd. 11, (debenture) 329
Alloys (book) Supp. Feb. 13
Almanack contract (legal query) 389
— (see also Calendars)
Almond oil, testing 875
Almora, Ltd. 903
Aloes (B.P. note) 289, (colour-reaction) 501, (in Basutoland) 772
Aloin (B.P. note) 289
Alypin 876
Amalgam, electrical 100
Amber, flinty (law case) 10
Ambrose, Robert, Ltd. (winding up) 645
Ambulance service in London 488, 614
American Drug-stores (dinner) 123
American gooseberry mildew (treatment) 768
American Pharmaceutical Association 8, (officers) 9, Supp. Jan. 16, Supp. April 24, 397, ("Proceedings") 726, Supp. June 26
Amidol developer 390, Supp. June 12
Ammonia in dog-fight 477
— household, 278
— labelling 4
— poisoning, Supp. Feb. 6, 633, 710, 851, 983
— pyridine in 111
— soap, 894
Ammonium brom. and mag. sulph. in mixture (disp.) 124
— hyposulphite as fixing agent 639
— nitrate (Ray on) 338
Ammonium persulphate solution, preservation 639
Ampoule filler 366
Ampoules, empty 220, 593
— varieties and methods of dispensing 169
Anæmia, nettle soup for Supp. Jan. 2
Anæsthetics Bill, 528, 557, (letter) 612, 632, 636, 711, 831, (with-drawn) 906, (text of) 975
— books 766, 867
— Committee 368, 461, 488, 739
— deaths from (letter) 34, 299, (Waldo's recommendations) 356
— local (Fourneau on) 876
— use of, by dentists 408
Analgesic balm (C.F.) Supp. Jan. 16
Analysts' appointments 2, 38, 72, 103, 136, 214, 357, 393, 444, 447, 618, 736, 768, 769, 816, 896
— fees 248
Analysts' reports (Aberdeenshire) 359, (Battersea) 103, (Bedford) 248, (Bedfordshire) 736, (Belfast) 770, (Berkshire) 768, (Bethnal Green) 103, 699, (Birmingham) 320, 584, 769, (Bournemouth) 736, (Bristol) 248, (Camberwell) 214, 846, (City of London) 516, 816, (Deptford) 669, (Dundee) 4, (East Riding) 136, 699, (Gloucester) 584, (Hampstead) 282, (Herts) 136, 699, (Hove) 72, (Kensington) 103, 665, (Kent) 282, (Lancashire) 699, (London City) 933, (Middlesex) 357, 846, (Monmouthshire) 444, (Northampton) 103, (Paddington) 214, (Poplar) 136, 516, 768, (Portsmouth) 933, (Rotherham) 933, (St. Pancras) 214, 933, (Sheffield) 248, 769, (Southampton) 282, 768, 846, (Staffordshire) 214, 768, (Stepney) 392, 933, (Stoke Newington) 618, (Swansea) 321, (Walsall) 933, (Wandsworth) 103, 214, 444, 933, (Warwickshire) 321, (West Riding) 517, (Westminster) 357, (Woolwich) 136
Analyst's salary 4, 73, (law case) 722
Anderson, J. (death) 297, (will) Supp. June 12
Anderson, J. (personal) 898
Andrews, G. G. (bankr.) 46, 102
Andrews, J. W. (death) 46
Anemone pulsatille, alcolature d' 24
Anesthæine, 876
Anghioma, treatment with radium 199
Anglers' oil 892
Anglo-American Drug Co., Ltd. (Winslow's syrup) 298
Anglo-American Pharmaceutical Co. (London office) 454, (exhibit) 462
Anglo-Persian Oil Co., Ltd. 644
Angola, beeswax exports 5
Animal heat (lecture) 258
Antcliffe, H. (personal) 136
Anthrax infection, avoiding 454
Anti-cutting (see Proprietary Articles Trade Association and Price protection)
Anti-oxidiser for soldering 582
Antiformin disinfectant 22
Antimites (adulteration material) 786
Antimonium sulphuratum (B.P. note) 289
Antimony, Chinese 890
— exports, Shanghai Supp. Jan. 16
— smelting (Canada) 669
— tart. and sodium carb. reaction 476
Antipyrin habit (inquest) 666
Antiseptic, iodine as 518
— pastilles (law case) 144
— in textile industry, 376
Ants, insect-powder 191
Apenta-water, price 976
Aperient powders for children 390
Aplin (Weston), Ltd. 591
Apocynum androsæmifolium, research on 499
Apocynum cannabinum bitter principio 662
Apollinaris Co., Ltd. (Apenta price) 976
Apomorphine (B.P. note) 289
Apothecaries Act cases (see Legal reports)
— rise of 489
Apothecaries' Assistants' examination 212, 438, (experience) Supp. April 24, 698
— and P. & P. Act, 225, 275, 312
— trading title 131
Apothecaries' Hall of Dublin 421, (claim compensation) 557, (G.M.C. action) 832
Apothecaries' Hall, use of title in Scotland 100
Apothecary, revival of title, suggested 351
Apostemes, formulae 24
Apprentices to companies (Ireland) 105, 138, 214, 221, 242, 269
— examinations for 478, 573
— experience 440
— fees for 67
— prize-scheme 573
— registration (U.S.) 42
— regulating (Austria) 141
— scarcity (Germany) 141
Apprenticeship, duration 246, question (France) 818
Aranoba (B.P. note) 291
Area nut oil, investigation 786
Arle, Ltd. (winding up) 485, 644
Argentina, pharmacy in 455
— proprietary medicines regulations 216
Argentine estates of Bovril, Ltd. 219
Argonaut Varnish Co. (exhibit) 756
Armour & Co., Ltd. (contract) 257, (soda fountain supplies) 908
Armstrong, B. (deed of arr.) 218
Armstrong, H. E., on water 153
Armstrong trust (settlement) 393
Army compounders and P. & P. Act 209, 225, 275, 293, 302, 473
— pharmacists (U.S.) 580, (foreign) 914, (France) 935, (see also Territorial army)
"Army pill No. 9" 316
Arnold, H. R. (portrait) 167
Aromatic syrup (Boa on) 339
Arrowroot, Bermuda (letter) 472
Arsamin 758
Arsenate detection, note on 318
Arsenic in agriculture, prohibition recommended 138, 251, 896
— compounds, organic (Martindale on) 874, (assay) 875
— in Cornwall Supp. June 26
— detection, new method 876
— effect of smelling 811
— in food 929
— in homeopathic medicines, sale of 245
— insecticides, danger (France) 251, 896
— limit 386
— in organic compounds, assay 875
— poisoning 138, 421, 934
"Art of Dispensing" (appreciation) 457, (review) 108
Artificial Teeth Aid Society, Ltd. (receiver) 645
Aseptio Bed Co., Ltd. 941
"Aseptio" clinical thermometers 149
Ashe, Dr. J. (personal) 393
Ashfield, P. J. (personal) 11
Ashton, H. M. (personal) 335
Ashton, N. T. (deed of arr.) 822
Ashton, T. G. (retires) 213
Ashton & Parsons (Phosferine trade-mark) 522, (increase prices) 754
Ashton-under-Lyne Chemists' Association Supp. May 15, 464, 504
Asphyl 875

- Askwith, G. R., appointment 70
 Aspirin and quinine powders, 474
 Assistants abroad, to obtain 492
 — agreement, verbal, 35
 — demand for 141, 601, 784
 — demands (N.Z.) 41
 — examinations for 352, 478, 573
 — Federation (France) 5
 — holidays, right to 67, 844
 — hours (Colorado) Supp. May 29, (deputation) 906
 — living in (report) 83, 205
 — notice (law case) 106, (custom of trade) 695
 — qualified, and P. & P. Act 244
 — regulations (Austria) 141
 — salaries (scale) 41, (letter) 314, (claim) 327, (in Bohemia) Supp. Feb. 13, 684, (computing) 765, (discussion) 866 (*see also* *Wages infra*)
 — scarcity of (*see* *Demand for supra*)
 — Union, suggested 439, 512, 579, (Jay Mack on) 660 (*see also* *National Union of Assistant Pharmacists*)
 — unqualified, not wanted 519
 — and P. & P. Act, 131, 208, 209, 275, 277, 293, 312, 313, 352, 387, 438, 441, 513
 — Wages Board (N.S.W.) 41, 74, 257, 669, 701, 889
 Association of Certificated Dispensers 77
 Association of Chambers of Commerce 103, 136, 212, 356
 Association of Women Pharmacists 110, 377, 504, 953
 Associations, initials of 781
 Asthma, cause of 229
 — pills 930
 — powder 930
 — spray 36
 Astigmatic clips 858
 Astigmatism (Laurance on) 301, (Corner on) 302, (correction of) 378
 "At the Counter" (*see* *Orders, curions*)
 Athletics use oxygen 27, 561
 Atkins, S. R. (personal) 79
 Atkinson, A. P. (order system) 908
 Atkinson, G., & Co. (foundation) 223
 Atkinson, J. & E. (Sicily disaster) 81
 Atkinson & Barker's Royal Infants' Reservists 298
 Atmosphere, newly-discovered constituents 952
 Atomic weights hypothesis 267, (revised) 265
 Atropine and borax in mixture precipitates 124
 Attenborough, T. W. (personal) Supp. Jan. 2
 Atwater, R. E. (suicide) 584
 Aubrey-Elias fountain bulb 366
 Auction sale at chemists 212, 281, 668, 771
 Auctioneer's licence 660
 Austin, T. G. (death) 46
 AUSTRALIA:
 British trade with 628, 635
 Chemists' opportunities 677
 Commerce (Trade Descriptions) Bill 7
 Commerce Act (importing proprietaries) 275, (regulations) 325, (proprietaries stopped) 669, 680 ("Trade Description") 680
 Drug-trade prospects 628
 Federal Pharmacy Board, suggested 7
 Patent Medicine Bill 40
 Photographic goods in Supp. Jan. 23
 Proprietaries, importing 275, 669, 680
 Prospects for pharmacists 811
 Pure Food recommendations 40
 Starting business in 628
 Tariff changes, trade hindrance by 20
 — decisions 430
 Trade of (book) Supp. Feb. 13, 635 (*see also* *under* *New South Wales, Queensland, South Australia, Tasmania, Victoria, and West Australia*)
 Australian Pharmaceutical Conference 30
 Austria, assistants' regulations 141
 Autochrome process Supp. June 12
 Automatic Folding Machine Co., Ltd. (circular folder) 330
 Ayrton, Saunders & Kemp, Ltd. (Scotch representative) 12, (lists) 80, (dance) 380
 Azfar Uttib 949
 B
 BACILLOSINE, commission scheme 5
 Bacteria (books) Supp. February 13, Supp. March 20, 763
 Bacteriology, books on 893
 Bailey's Remedies, Ltd. (liquidation) 364, 941
 Baines, W. H. (death) 744
 Baiss Bros. & Stevenson, Ltd. (greeting) 17, (Scotch agency) 135, (on poison names) 415, (adv.) 645, (exhibit) 756
 Rakelite 361
 Baking-powder 191
 Balaam's ass (letters on) 660, 695, 734
 Balance, to strike 56 (*see also* *Accounts for chemists*)
 Balkwill, G. (death) 453, (will) 702
 Baller, F., & Co. (Sicilian disaster) 114
 Ballroom-floor polish 442
 Ball-stopper patent case 362
 Balsam tolu and castor oil (dispensing) 209
 Bamrough, Ltd. (receiver) 615
 Banana-essence 210
 — syrup 210
 Bank Holidays Extension Bill 711
 Bankers responsible for forged signatures (law case) 643
 Bankruptcies and failins are indexed under name of bankrupt
 Bankruptcy Act amendment 136, (deputation) 249, (Irish position) 408, 590 (*see also* *Legal reports*)
 Banner, Saml., & Co., Ltd. (debtenture satisfied) 645
 Barbados, wine-licences wanted 334
 Barbed-wire liniment 191
 Barbers' itch, protest re 699
 Barcelona exports 13
 Barclay, Sir T. (personal) 214, 320, 358, 933
 Barclay & Sons, Ltd. (visited) 149, ("Velvey" sponges) 220, (report) 453
 Barium in sealing-wax 548
 — sulphide (poisoning) 64
 Barker, R., & Son (infants' preservative) 298
 Barkola, "Truth" on 19, 80
 Barnes, W. C., & Co., Ltd. (receiver appointed) 364
 Barnley Chemists' Association 377
 Barrass, E. (suicide) 584
 Barrett, A. A. (Sicily disaster) 50, 114
 Barristers, chemists as 646
 Barron, Harveys & Co. (calendar) 13, 48 (*see also* *British Drug Houses, Ltd.*)
 Barron, G. G. (death) 525
 Bartlett Light Cure Institute, Ltd. (winding-up) 78, 145
 Basford Chemical Co., Ltd. 524
 Basutoland, pharmacy law needed 480

Easton's syrup poisoning, 421
— sale, coroner on 281, 393
Eaton Telephone Disinfecter Co., Ltd. 903
Eau Albumineuse 190
Eau de Cologne, bicentenary 179, 223
— increase in price 710
Eau de la Fou, Ltd. 108
Eau de Goudron 190
Eau de Mélisse des Carmes. 24
Eau de quinine colouring 354
Eau saline purgative 190
Eau Vulnéraire rouge 24
— spirituous 24
Ebonying wood 132
Edinburgh Central School of Pharmacy Supp. May 29
— chemists in 898
Edinburgh Chemists', Assistants', and Apprentices' Association, 235, 303, 377, 464, 536, Supp. April 10, 648, 818, 918, 935, 970
Edinburgh Chemists' Golf Club 283
Edinburgh Chemists' Trade Association, 89, 236, Supp. May 8, 866, Supp. June 26
Edinburgh Co-operative Drug Stores 668
Edinburgh Pharmacy Athletic Club 4, 448, 586, 898
Edinburgh Royal Dispensary 215
Edmiston, W. (death) 525
Education of pharmacist (Grier on) 466, (Cofman on) 504, (Austria) 637
— technical, Meldola on 824
Edward VII., appointments bacteriologist 2
— German visit, 325
Edwards, F. (death) 904
Edwards, W., & Son (new list) 837
Edwards' Harlene Co. (greeting) 17, (inset) 146
Eggs, dried 725
Egg-yolk protein 14
Egyptian Sanitary Department (H.C. quest) 831
Ekins, A. E. (personal) 725
Elaterin (Berg on) 874
— derivatives 662
Electric Kleen plate-powder 496
— lamps, varieties 188
— snuff (police-court case) 585, 844
Electrical amalgam 100
"Electrical Laboratory Course" (book) 57
— massage instrument 366
— striations 548
Electricity in Factories (book) Supp. March 20
— how charged 188
— as illuminant 187
— tax proposed (Germany) 361
Electro-gilding 246
Electrolytic industries (book) 867
Elements, transmutation 525
Elephant trade-mark case 10, 106, 285
Elixir de Garus 190
Elkington's test-types 33
Elliott, F. W. (deed of arr.) 971
Elliott Bros., Ltd. (fire) 7
Ellis C. (death) 591
Ellis, Dr. G. (death) 214
Ellis, J. W. (death) 853
Ellis, R., & Son, Ltd. 744
Ellison, H., Ltd. 972
Embrocation, white 696
Emery, C. F. (portrait) 311
Emery's "Company Management" 640
Emmotland Chemical-works Co., Ltd. (winding up) 743
"Empire" day 838
Emplâtre Brun (F.C.) 190
Employers liable for traveller's dishonesty 327
Employers' Liability Act (see Legal reports, also Workman's compensation)
Emulsin as glucoside test (Bourquelot on) 882
"Englishwoman's Year-Book" 26
Entebbe hospital 184
Epileptics, treating Supp. Feb. 13, 930
Erasmo Co., Ltd. (greeting) 17, (shaving stick) 257, (appointment) 560
Ergot, active principle of 833
— oil, investigation 786
Ergotinine of Tanret 150
Ergotoxine 150
Eriodictyon 163, 228
Erlenmeyer R.A.C.E. (death) 297
Ernutin 150
Esbach's albuminometer 893
Esperanto, Cummings on 4
Essential oil trade meeting 82
— oils, colour on mixing 315
— in pills (dispensing) 537
— prices review 29 (see also Earthquake in Sicily)
Ether, B.P. note 289
— purifying, from peroxide 882
— of space (book) 763
Eucalyptus genus (Maiden's book) 430
Eucalyptus globulus oil 386, 439
— oil, eucalyptol content 386
— Transvaal 851
Eueryl, Ltd. (inset) 146, (exhibits) 125, 757
Eupatorin 873
Eupatorium Rebaudianum composition (Dieterich on) 873
Euphorbia pilulifera research, Supp. March 20
Eupneuma 150
Euquinine t.m. in Japan 310
Eureka Clock Co., Ltd. (electric clock) 908
Evans, D. R. (death) 109
Evans, Sir E. (R.A. portrait) 734
Evans, Gadd & Co., Ltd. (poison-schedule card) 34
Evans Sons Lescher & Webb, Ltd. (greeting) 17, (Liverpool virus) 48 ("analytical notes") 220, (shop-front) 330, (report) 401, (meeting) 453, (dinner) 466, (dividend) 524, (exhibit) 757, (visited) Supp. May 29
"Evans's analytical notes" 220
Evans and Wormull (see Wormull, F. A. E.)
Everatt, T. (death) 777
"Every Man's Own Lawyer," Supp. March 20
Evolution of drug trade 694
Examinations (see Pharmaceutical Society)
Examiners, dishonest, Supp. April 24
Excelsis bouquet 758
Excise Act cases (see Legal reports)
Excise, Johnson's definition 457
Exeter Association of Pharmacists 160, 341, 466, Supp. May 8
Exhibitions Commission (see International Exhibitions Commission)
— as advertisements 600
— (see name of exhibition)
Explosive, new 516
Explosives Act cases (see Legal reports)
— in coal-mines, regulation 618
— heat-tests, committee 664
Express Developing Co. (photo. work) 330, (exhibit) 725, 757
Ext. cannab. ind. in mixture (dispensing) 389
— caseara sag. (hygroscopic) 208
— (early use of) 244
Extracts, fluid, J.Ph. method 380
Eye and its defects, paper on 378
Eyeglass bar, soldering 582
— fitting 858
— plaquets 858
Eye lotions, isotonic 780
— removing grit from 189
Eynon, C. E. J. (sketch) 467
- F**
FACTORY ACT CASES (see Legal reports)
Failures in 1908 2, 55
Failures are indexed under the person's name
Fairburn, H. (port.) 779
Fairchild, S. W. (personal) 725
Fairchild Scholarship examination 985
Fairclough, T. C. W. (death) Supp. May 15, 819
Fairweather, G. (death) 78
Faith-healer prosecuted (France) 848
Family salve 191
Fannin & Co. (note on) 359
Farina, J. M., Cologne (bicentenary) 150, 179, 225, (exhibit) 757
Farr, F. W. (deed of arr.) 485
Farries, T. (port.) 167
Fassett, W. H. (will) 14
Fat-reducing tablets 442
Faulding, F. H., & Co. (milk emulsion) 647
Fawell, L. (death) 954
Feaver, S. (will) 14
Federal Dispensary, Ltd. (report) 591, (exhibits) 622
Federation of Local Pharmaceutical Associations 236, Supp. May 8, 649, 658, 755
Feeding-bottle, extemporised 114
— with tubes, prohibiting 898
Fehling's solution (one solution) 425
— sugar test, anomaly 614
Fellows' syrup, sale of 277
Felon draught 390
Female corrective mixture 100
— pills (law case) Supp. January 30
Fenner, A. J. (bankr.) 452
Fennings' fever curer (free from poison) 538
Fermentation, alcoholic, rate of 14
Ferrein, F. (personal) 837
Ferri ammon. et tr., phosphoric acid, and alcohol in mixture gelatinises 99
Ferrier, J. G. (port.) 625
Ferris & Co. (dinner) 260, (rifle club) 280, (flower-show) 896
Ferrous arsenate as insecticide 251
— iodide syrup 425
Fertilisers and Feeding-stuffs Act (H.C. quest.) 739
Fever-powder 36
Ficksburg, pharmacy at 175
Fiction, pharmacy in Supp. June 26
Fifeshire Pharmaceutical Assn. 235, 503, 834
Finance Bill 858, ("X-ray" on) 859, (ed.) 860, 943, (ed.) 946, 980
Findlater & Co. (exhibit) 759
Findlay, J. (port.) 625
Finger-nails disease 132
Finishing fabrics 376
Finland, pharmacy legislation Supp. May 8
Finn, F. (death) 145, (will) 591
Fioravanti, alcoolat de 24
Fireproofing fabrics 376
— wood 546
Fires (see weekly contents, English news, etc.)
— on chemists' premises (London) 477
Firms in Scotland (effect of P. and P. Act) 53, 132
— use of title pharmacist 129, 132, 277, 929
Firth, E. A., & Co., Ltd. 644
Fitch, F. W., & Co., Ltd. 941
Fitz, J. (death) 673
Fitzpatrick, M. F. (creditors' meeting) 393
FitzRoy, A. (personal) 497
Fixing bath, ammonium hyposulphite as 639, (concentrated) 964
Flack, Jos. (Sicily disaster) 49, 81
"Flame" arc lamps 188
Flannelette, non-inflammable 618
Flashing-signs 149
Fletcher, W. H. (deed of arr.) 555
Fletcher, Fletcher & Co., Ltd. (inset) 146, (dinner) 933
Flour, self-raising 546
Flux, W. (will) 47
Flugel & Co. (aerated water machines) 496, (exhibit) 725, 757
Fluid de Prairie perfume 757
Fog & Figli (Sicilian disaster) 114
" Fogging " system of sight-testing 423
Fonnerat, M. (death) 479
Food, microscopy of (book) 373
Food preservatives (U.S.) Supp. February 13
Food, tin in (report) 263
Food and Drugs Act (see Sale of Food and Drugs Acts, also Legal reports)
Foods, composition and analyses (Blyth's book) 921
Foods, Ltd. (debtentures) 78
Foods and nutritive value (book) 164
Football league (see Inter-pharmacy football league)
Ford, Shapland & Co. (Turnstile fly-coll) 724, (exhibits) 725, 757
Forensic medicine (book) 726
Forfarshire Chemists' Assn. 604, 648, 835
Formactose 756
Formaldehyde as dead body preservative 212, 496
Formalin disinfection 780
— in mortuary 212
Formule, original, offering (law case) 217
Forrest, R. W. (death) 336, (will) Supp. June 12
Forshaw, C. F. (summoned) 967
Forster, A. (illness) 701
Forster, W. D. (will) Supp. April 3
Fortune, R. (death) 47 (will) 421
Foster, B. S. (death) 487
Foster, J. (death) 401
Fountain-bulb 366
Fowler's solution, analysis 830
Fowls, gapes in 210
Fox, A. R. (personal) 769
Fram Manfg. Co., Ltd. 672
Frame Food Co., Ltd. (exhibits) 725, 757
FRANCE:
Adulteration Act, conviction 360
Alcohol, denaturised regulations 215
Apprenticeship question 818
Assn. General 668
Assn. General 668
Bandagists' action against pharmacists 323
British trade with 751
Canadian treaty 215, 551
Chemical Co. found 551
Chemistry prizes 587
Dentists, foreign 449
Education scheme criticised 700
Employers' Liability Act tariff 139, 650, 849
Excise regulations 215
Fruit-syrups decree 668
Income-tax, proposed 449
Locum's salary 650
Patents Act amendment 74, 283
Pharmaceutical Assurance Society 818
Pharmacist's diploma equals B.Sc. 479

FRANCE (continued):

- Pharmacy curriculum 360, 599
 Pharmacy inspectors 251
 — law revision 519
 — practice, illegal 40, 448, 587
 — students (ball) 738, (Congress) 738
 Poisoning statistics 586
 Postal strike 519
 Proprietaries Mfr. Assn. 587
 Prud'homme (system) 40, (appointment) 360
 Public Assistance and medicine supply 771
 Receipt stamps tax 449
 Secret commissions 771
 Serums, supply by pharmacists 5
 Students' congress 818
 — home Supp. Jan. 23
 Tariff revision Supp. Jan. 23, 215, 262, 284, 360, 970
 Trade with U.S. 738
 Francis, J. B. (portrait) 258
 Frankenstein & Co. (Sicilian disaster) 130
 Frankenstein, E. N., & Co. (otto of rose) 804
 Franklin, J. (death) 777
 Franks, W. T. (app.) 281, 299
 Fraser & Green, Ltd. (director) 935
 Freckle-lotion 930
 Freeman, M. (personal) 846
 French Codex (formulae) 24, Supp. May 15 (poison cupboard) 40, (Yvon on) 448, 449, (as standard) 700, 771, (in force) 848, 970
 Freudentheil & Co. (cod-liver oil) 329
 Friendly society for chemists, suggested 34
 Froembling, W. (port.) 296
 Frost, G. (deed of arr.) 903
 Frowin, C. (people's fly-catcher) 724
 Fruit acid 210
 Fruit syrups decree (France) 668
 — preservatives in (U.S.) 8
 Fruit-tree pests, sprays and washes for Supp. Jan. 2
 Fuerst Bros. (Sicily disaster) 81, (crystal pyro) 298
 Fulford, G. T., Co., Ltd. 255
 Fulford's will (law case) 40
 Fuller's "Pharmacopœia" 196
 Fullers' earth discovery 71
 Fullers Earth Union, Ltd. (debentures) 288, 744
 Fungi, importance of 465
 Fungicide for fruit-tree pests Supp. Jan. 2
 — lime-sulphur wash as Supp. Jan. 2
 Furniture cream 894
 — paste 894
 — polish 191
 — reviver 354, 765
 — worms, destroying 780

G

- GADD, H. (personal) 497, 676
 Gadd, H. W. (personal) 646
 Galls, exports (Aleppo) 941
 Galvanising, vapour method 611
 Gamble, Sir J. C. (will) 79
 Gamgee, A. (death) 525
 Gapes in fowls 210
 Gardam, W. J. (bank.) 364, 452
 Gardner, C. E., & Co. (exhibit) 622
 Gardner, J. (death) 109
 Gardner, W., & Sons, Ltd. (exhibit) 804
 Garth, S. (note on) 529
 Garth's "Dispensary" 529
 Garus, alcoolat of 24, 190
 Gas, first use of word 193
 — as illuminant 187
 — making described 186
 Gas-meter water, HON in, 501
 Gases, ignition temperature 422
 Gaskell, H. (death) 401, (will) Supp. June 12
 Gastric ulcer, treatment 442
 Gathergood, Dr. B. W. (death) 853
 Gavelle's extract, what is? 929
 Gazette (see weekly contents)
 Gelatin solution Supp. May 15
 Gelatino-chloride prints, hardening solution 514
 Gelsemium as poison 277
 General Medical Council (recognition of public schools) 103, (Pharmacopœia report) 288, 295, 382, 832, 864
 Generative organs (book) 36, 921
 Gentian-root powder adulteration 248
 George, T. J. (will) Supp. June 12
 George Fown Dispensary, Ltd. (dividend) 942
 Georges, M. (personal) 138
 Gerard's "Herbal," note on 196
 Gerhold, H. A. (port.) 160
 German Chemical Society Supp. Jan. 16
 GERMANY:
 Chemical Cos.' dividends Supp. April 24, 525, 645, 744, 852
 Chemical-industry position, Supp. April 3
 Chemical Institute scheme 109
 Colonial pharmacy 591
 Co-operative trading 850
 Drug-trade fraud, Supp. Feb. 13
 Druggists' list of medicines, 850
 Electricity tax, proposed, 361
 Galenicals, mfr. by pharmacists 63, Supp. Jan. 23, Supp. April 3, 451, Supp. May 29, 451, 850
 Patent Law reform 141
 Penny postage with U.S. 23
 Perfumery taxes 913, Supp. June 26
 Pharmacists' business, nature of 334
 — position 431
 Pharmacy census 590
 — concessions 850
 — inspection 325
 Proprietaries (advertising) 141, (evading law) 850
 Spirit taxes 242, Supp. March 20, Supp. April 24, 310, 385, 721
 Tablets, sale of Supp. April 3
 Trade of 1908 414
 Gesner's "Jewel of Health" 196
 Gibbard, G. E. (port.) 623
 Gibbs, Wolcott (memorial lecture) 919
 Gibson, F. J., 557, (council candidate) 571, 736, 797
 Gibson, S. (personal) 817
 Gilding, book on 442, 930
 — by electro-deposition 246
 Gilkes, F. G. (death) 401, (will) 673
 Gill, W. (presentation) Supp. May 15
 Gillette Safety Razor (passing-off case) 217
 Gilmour, D. (personal) 447 (council candidate) 676
 Gilmour, J. P. (sketch port.) 792
 Gilmour, W. (deed of arr.) 590
 Ginger-beer from gingerin 474
 Ginger crop (Sierra Leone) 827
 Gingerin in ginger-beer 474
 Ginseng in Korea 199
 Glamorgan Chemical Co., Ltd. 486
 Glasgow Assistants' Association, proposed 771
 Glasgow School of Pharmacy Supp. Jan. 2, Supp. March 6, Supp. March 27, Supp. May 1
 Glasgow and West of Scotland Chemists' Association 113, 157, 342, 503, 686, Supp. June 26
 Glasgow and West of Scotland Technical College 935
 Glass, neutral, for ampoules 169
 Glazing-starch 132
 Glidine and its preparations 539
 Glucoside testing (Bourquelot on) 882
 Glue, liquid 354
 Glycerin cream 565
 — in galenicals, assay 268
 — jelly 565
 Glyco-thymoline, sale unstamped 851
 Glyn-Jones, W. S. (maxim) 261, (Parliamentary candidate) 491, 535, (new book) 539, (personal) 557, (sketch port.) 566, (sketch) 791
 Glyoxal reaction for opium alkaloids 876
 Gnat-bite lotion, fatality 13
 Goftre ointment 354
 Gold-coated mirrors 766
 Goldby Stopper Co., Ltd. 46
 Golf club for chemists (projected) 103, 213, 280, Supp. March 6
 Gonorrhœa paste 316
 Gonoson (Winzheimer on) 168
 Goodall, Backhouse & Co. (greeting) 17, (relish song) 428, (list) 646
 Goodrich, B. F., Co., Ltd. 255

- Goodwill, what is? 439, 472
 Gooseberry mildew (treatment) 768
 Gordelier, F. H. (bankr.) Supp. June 26
 Gordon Memorial College (anniversary) 2
 Gore, Co. (death) 12
 Gosnell, J., & Co., Ltd. (insect) 146, (price-list) 150
 Goss, S. F. (bankr.) Supp. Jan. 30
 Gossypium iodatum 24
 Gould's Tasmanian eucalyptus 454
 Gourlie, A. W. P. (port.) 624
 Government laboratories described 403, 457
 Goy, W. H. (personal) 592
 Grain weevils, destroying 780
 Graphite, effect of high temperature and pressure 498
 Grass-tree licences 41
 Gratten, C. (death) 297
 Gray, W. (death) 673
 Gray (Ernest) & Co., Ltd. 145
 Grease remover for motorists 68
 Great Britain, trade (see British trade and Board of Trade)
 Great Yarmouth Chemists' Assn. 89, 258, Supp. May 15, 424, 505, 573, 918
 Greece Pharmacy Bill 63
 Green's "Botany" 944
 Greenish's "Materia Medica" 726
 Greenishields, Jas., & Co., Ltd. 108
 Gregorius's "Mineral Waxes" (review) 26
 Grenadier, anozème d'écorce de racine de 24
 Grey powder, doses for children 696
 Grieve, J. (personal) 935
 Griffin, J. J., & Sons (theft) 39
 Griffith, C. (death) 365
 Grigor, W. E. (personal) 137
 Grimault & Co. (exhibit) 462
 Grimshy Chemists and Druggists' Assn. Supp. April 3, Supp. May 8, 235, 377, 427, 604, 918
 Grimshaw Bros. & Co., Ltd. (debentures paid off) 108
 Grocers' Licences (Abolition) Bill 488
 Ground-nut oil exports (Senegal) 952

hearty welcome and wished every success to the Association, which he hoped would not fail to call for his services if they were required.—Mr. A. Higgs proposed the toast of the “Pharmaceutical Society,” urging that the Society should do more than it does for the protection of chemists’ trade interests, for which it was originally founded.—Mr. Hobbs acknowledged the toast. He thought the Society wanted independent councillors who were not prepared to follow any

FLASHLIGHT PHOTOGRAPH OF THE DINNER PARTY, BY MESSRS.
BENDER & LEWIS, CROYDON.

lead, and urged the members of the Association to carry out strictly the provisions of the new Act. Speaking of Section 2 licenses, he outlined arguments to use before the local authorities, showing how free competition in the sale of poisons would result in chemists pushing rather than carefully controlling the sale of these dangerous commodities. The toast of "The Chairman" was given by Mr. A. B. Makepeace, and Mr. J. Shaw, in a happy speech, gave that of "The Visitors," Mr. R. Feaver Clark replying to the latter. During the evening an excellent programme of music was given at intervals, the artistes being Misses Elsie Wilkes and Irene Howard, and Messrs. C. Horrocks and A. H. Millner. Mr. J. Pinto Nash gave a gramophone recital and a selection on the violophone.

Fairchild Scholarship Examination.

THIS examination took place on Wednesday at Cardiff, Dublin, Edinburgh, London, and Manchester, and the questions set are subjoined. The examination is open to registered apprentices of pharmacy eligible to enter within a year for the qualifying pharmaceutical examinations of Great Britain (Minor) or Ireland (Licence), and was instituted by Messrs. Fairchild Bros. & Foster, of New York and London. The scholarship is 50*l.* in money, and is awarded to the best candidate. In addition, prizes of 5*l.* each are given to each of the next best candidates of English, Irish, Scots, or Welsh origin. The time allowed to candidates to answer the papers was : Business 1 hour, chemistry 1½ hour, materia medica 1 hour, pharmacy 1 hour.

ELEMENTARY BUSINESS KNOWLEDGE.

1. What are the regulations and law in respect to the sale of arsenical sheep-dip by (a) registered chemist and druggist, (b) licensed persons?

2. The Excise duty on spirits has been advanced by 3s. 9d. per proof gallon; it was previously 11s. per proof gallon. Proof spirit is approximately alcohol 50 per cent. Calculate the advances which should be made in the prices of the following preparations, so as to cover the increase of duty and 5 per cent. on the total cost:

	<i>s. d.</i>
(a) Tr. gentianæ eo 	2 1 per lb.
(b) Tr. cinchonæ 	3 8 " "
(c) Tr. myrrhæ 	3 10 " "

Assume that (a) 17 fl. oz.=1 lb., (b) 17½ fl. oz.=1 lb., (c) 18 fl. oz.=1 lb.

3. A representative is instructed to quote the following discounts:

20 per cent. and 10 per cent. off invoices	5 per cent. statement 28 days.
20 per cent. and 5 per cent. "	10 per cent. " "
30 per cent. " "	5 per cent. " "

State which would be the most advantageous or otherwise to his clients, proving your answers by figures.

4. In a consignment of goods (carriage forward) received, you find a pound bottle of oil of lemon has leaked and damaged a dozen parcel of proprietary pills (2s. 9d. per box retail), and on checking the goods with the invoices you find 1 lb. of chloroform short? State what you would do in these circumstances.

ELEMENTARY CHEMISTRY.

1. What is a seidlitz powder? Explain what takes place when it is mixed with water, and how you would determine approximately the new hodies formed.

2. What is horax? State (a) where it is obtained, and (b) how it may be made from borie acid and other necessary ingredients. (Give equation for any chemical reaction.)

3. If a rifle-barrel is filled with charcoal and heated in a furnace what takes place when the following are passed through it separately: (a) steam, (b) oxygen, and (c) carbon monoxide? Also state what happens if iron is used in place of charcoal.

4. Name three bleaching-agents which are in common use and explain how they act and how they are manufactured.

5. What is carholie acid? Whence is it obtained and what are its uses in common life?

6. To produce zinc sulphate one is usually instructed to use zinc and diluted sulphuric acid. Why is diluted acid ordered? What action takes place when (a) strong acid is used, and (b) diluted acid is used? Give equations.

ELEMENTARY MATERIA MEDICA.

1. What is *Prunus amygdalus*, var. *dulcis*? Name its natural order, habitat, and the products obtained from it which are employed in medicine and pharmacy, describing them and their uses.

2. Enumerate the British Pharmacopœia preparations of drugs which are standardised by their alkaloidal content. Give the official method for at least one drug.

3. What are the following substances: *sapo animalis*, *sapo mollis*, *sapo durus*, *cera alba*, *cera flava*, and *cetaceum*? Describe their origin and uses as far as you know.

4. What vegetable essential oils are distilled in Great Britain? Give the botanical names of the substances from which they are prepared and the uses of the oils.

5. What is leather as used in pharmacy? What are the chief articles used in making it?

PRACTICAL PHARMACY AND PRESCRIPTION READING.

1. Describe the British Pharmacopœia methods for preparing tinctures, and give three examples of each, their ingredients and strengths.

2. How would you make each of the following substances or combination of substances into a pill?

(a) pulv. rhei, gr. iij.
(b) zinc. sulphat. gr. ij.
ext. hyoseyami gr. i.
(c) acetanilidi, gr. iij.
(d) quininæ sulphat., gr. iv.
(e) potass. permangan. gr. ij.

3. Write in full, Latin and English, a fair copy of the following prescription:

Amm. iod.	5j.
Tinet. Seneg.	5v.
Sp. aeth. nit.	5j.
Sp. chlorof.	5ij.
Aq. dest. ad	5vj.

M.S.A.

How would you dispense the prescription? Describe any change which you think may occur in compounding the mixture.

4. Belladonna plaster mass contains 0.5 per cent. of alkaloids; the mass on a $7\frac{1}{2} \times 4\frac{1}{4}$ in. spread plaster averages 8.75 grammes; find the weight of alkaloids per square centimetre.

5. Give the official formulae for the following preparations: pulv. ipec. co., pulv. rhei co., and tinet. eamphor. co. Describe how you would make the second powder.

The Committee of Trustees will adjudicate on the examination, and comprises Messrs. Peter Boa (Edinburgh), Albert Hagon (Cardiff), W. F. Wells (Dublin), A. J. Phillips (London), William Kirkby, M.Sc. (Manchester), and A. E. Holden (Secretary), Bath House, Holborn Viaduct, London, E.C.

THE latest published information in regard to the West Indian lime-industry is contained in a Colonial report on the Leeward Islands for 1907-8, in the course of which it is stated that in Dominica the lime-crop in 1907 was 272,229 barrels, the largest on record, being an increase of 32,000 barrels of fruit over the crop of 1906. Concentrated juice sold at higher rates than have been known for many years past, and at no previous period has greater confidence been shown in the industry than at the present time. There was also a considerable increase in the export of citrate of lime, 2,388 cwt. being shipped, valued at 7,761*l.*, in 1907, against 753 cwt., valued at 1,503*l.*, in 1906. In Montserrat the lime-industry is steadily expanding, and has now resumed its former degree of importance. The manufacture of citrate of lime is carried on on an extensive scale, and is likely, in a large measure, to take the place of the production of concentrated lime-juice.

Trade Report.

NOTICE TO BUYERS.—The prices given in this section are those obtained by importers or manufacturers for bulk quantities or original packages. To these prices various charges have to be added, whereby values are in many instances greatly augmented before wholesale dealers stock the goods. Qualities of drugs and oils vary greatly, and higher prices are commanded by selected qualities even in bulk quantities. It would be unreasonable for retail buyers to expect to get small quantities at anything like the prices here quoted.

42 Cannon Street, London, E.C., June 24.

THE approaching end of the half-year has restricted the volume of business this week, the demand being mostly for small parcels, with the bulk of price alterations of minor consequence. Among chemicals, citric and tartaric acids and cream of tartar all remain dull, weather being unfavourable for consumption. Importers have reduced the price of quicksilver by 2s. 6d., but mercurials are unaltered. Ammonia sulphate is tending firmer, and copper sulphate is unaltered. Carbolic acid is easier. In drugs, the chief alterations include higher prices for foreign valerian and burdock. Buchu is very scarce, with no fresh imports; cascara sagrada has been sold at a slight advance for shipment, but spot is unaltered. Ergot is scarce and firm, and prospects point to the fact that several of the German botanic herbs will be later and scarcer this year. The cod-liver oil fishing has now practically closed, total results showing that last year's "record" yield has not been reached. Very little manufacturing cinchona was offered at auction, the bulk being druggists', which sold at full prices. Shellac at auction without reserve was lower for fine orange, TN being steady. English castor oil is firmer, and there is little moving in Turkey opium either in primary or spot markets, but Persian opium is firmer owing to an advance in Hong-Kong. The outlook for otto is still favourable. The week's fluctuations include the following:

Higher	Firmer	Easier	Lower
Burdock Turpentine Valerian	Ammonia sulphate Benzols Castor oil (Hull) Chamomiles Opium (Persian)	Carbolic acid Cassia oil	Quicksilver Shellac (fine orange)

Cablegrams.

BERGEN, June 23 :—The cod-fishing at Finmarken has now closed, and the market for finest non-freezing Lofoten oil is quiet at the equivalent of 63s. per barrel c.i.f. London.

NEW YORK, June 24 :—Business is quiet. Opium is 5c. easier at \$4.20 per lb. for druggists' by single cases. Jalap is firm at 45c. Cascara sagrada is $\frac{1}{2}$ c. lower at 8c. Peppermint oil in tins is easy at \$1.45. Menthol is firm at \$2.50. Copaiba is quiet at 45c. for Central and South American.

London Markets.

ACID, CITRIC.—Dealers continue to report a dull market on the previous basis of 1s. 4 $\frac{3}{4}$ d. for English and 1s. 4d. to 1s. 4 $\frac{1}{4}$ d. per lb. for foreign.

ACID, TARTARIC, like citric, remains in slow demand, at 10 $\frac{3}{4}$ d. for English and 10 $\frac{1}{4}$ d. for foreign.

AGAR-AGAR is steady, at from 1s. 7d. to 1s. 9d. per lb. spot as to quality, the higher being for No. 1 Kobe strip. Retail sales have been made at these figures.

ARROWROOT.—At auction 638 barrels of St. Vincent were bought in at from 2d. to 3d. for good to fine manufacturing.

BUCHU.—No arrivals have taken place, and the market continues extremely firm.

BURDOCK is dearer at from 22s. to 24s. c.i.f. for shipment, the spot value being about 27s. 6d.

CAMPHOR (CRUDE).—Some business was done early in the week (200 piculs) in China crude at 126s. c.i.f. for July-September shipment, but others ask 140s. c.i.f. The Government price is unaltered at 135s. for B and 140s. for B.B. c.i.f. terms to arrive.

CASCARA SAGRADA.—The spot market is quiet at from 42s. 6d. to 45s., and for sailer shipment from the West Coast of U.S.A. business is reported to have been done up to 39s. 3d., c.i.f., which is an advance of about 1s. on previous price paid.

CHILLIES.—At auction 54 bags of fine bright Japan were bought in at 40s.

CINCHONA.—At auction on Tuesday 803 packages were offered, the bulk of which was druggists' bark. Practically all the offerings sold, the average unit being $\frac{1}{16}$ d., against $\frac{5}{8}$ d. at the previous auction.

The following table shows the quantity of bark offered and sold:

	Packages Offered	Packages Sold
African cinchona	414	414
East Indian cinchona	212	184
Ceylon cinchona	177	145
	803	743

The following table shows the quantity of bark purchased by the principal buyers:

	Lb.
The Brunswick factory	27,580
The Mannheim factory	9,765
The American factories	9,240
Druggists, &c.	63,938
Total quantity sold	110,523
Bought in or withdrawn	9,563
Total quantity offered	120,086

The prices paid were as follows: AFRICAN, good bright sound Succirubra quill, 4 $\frac{3}{4}$ d. to 4 $\frac{7}{8}$ d.; and broken quill and chips, 2 $\frac{1}{2}$ d. to 3d. CEYLON: Succirubra stem quilly chips, 1 $\frac{1}{2}$ d.; and Ledgeriana, 2 $\frac{3}{4}$ d. EAST INDIAN: Officialis, bright stem chips and shavings, 2 $\frac{3}{4}$ d., and root 1 $\frac{3}{4}$ d.; Succirubra, original stem chips and shavings, 1 $\frac{3}{4}$ d. to 2 $\frac{1}{2}$ d.; broken quill and chips, 3 $\frac{1}{4}$ d.; and root, 1 $\frac{3}{4}$ d.; Ledgeriana, original stem chips, 3 $\frac{1}{4}$ d. per lb. The shipments from Java to Europe during the first half of June amounted to 536,000 Amst. lbs., against 781,000 Amst. lbs. in 1908.

CLOVES.—At auction five cases of fine Penang picked were bought in at 1s. 3d., and 122 bales of Zanzibar were also bought in at 4 $\frac{1}{2}$ d. Privately the market for Zanzibar continues very quiet, with sellers of August-October delivery at 4 $\frac{1}{2}$ d., and for October-December shipment (new crop) at 4 $\frac{3}{8}$ d. c.i.f.

COPPER SULPHATE is practically unchanged on the week, Liverpool brands offering at 19l. 5s. per ton for prompt delivery.

CUBEBS continue extremely scarce and dear, a small sale being made last week at 6l. per cwt., but for a 5-bag lot there is a seller at 5l. 15s.

ERGOT remains firm. Russian offering at 1s. 4d. per lb., c.i.f., and on the spot very little appears to be available.

GAMBER.—Cubes are scarce on the spot, with small sales at 38s. per cwt.

GINGER.—At auction Jamaica was quiet, about 500 packages being offered, of which 40 sold at from 59s. to 64s. for middling to good middling, and 52s. for good ordinary small. Of Japan, 70 bags were offered, and 20 sold at 27s. 6d. for limed wormy.

GUM ARABIC.—Soudan gums are quiet, with small spot sales at steady prices. For fair half hard new crop 29s. to 30s. spot is quoted. East Indian gums are also quiet, but primary markets are somewhat firmer, 30s. per cwt. being asked for No. 1 quality. Senegal (Bas de Fleure) is firmly held at about 30s., c.i.f. London.

IPECACUANHA is steady, with a small business in Matto Grosso on the basis of 5s. 6d. for good; and for Cartagena from 4s. 3d. to 4s. 4d. has been paid.

LIQUORICE ROOT.—Cut decorticated on the spot is very scarce, fair being held for 42s. 6d., which does not tempt buyers. The value of common natural Persian is 11s. on the spot.

MAIZE.—Steady. At auction 16 packages of West Indian offered and sold at 1s. 7d. to 1s. 8d. for fair palish, 1s. 6d. to 1s. 7d. for fair red, and 1s. 2d. to 1s. 5d. for broken.

MENTHOL.—The activity of the previous two weeks has now subsided, and for the time being the article is marking time, no further advance having been made. Prices are firm, however, with spot sales of Kobayashi at from 9s. to 9s. 3d., with buyers on Wednesday at 9s. 1½d., and Suzuki at 8s. 11d. to 9s. For June-July and July-August shipment Kobayashi has been sold from second-hands at 9s. to 9s. 1½d. c.i.f., and Suzuki for August-September at 9s. c.i.f. Some extraordinary prices have been cable from Japan this week.

MUSK.—Good quality Tonquin blue skin, Pile I., is held for 72s. 6d. per oz., and for fair quality 68s. has been paid. Rather heavy old-fashioned has been sold at from 52s. to 52s. 6d. per oz.; and Pile III. is held for 35s. per oz. The stock of Cabardine is small, the value being about 19s.

OIL, ANISEED.—Spot market is firmer, with small sales at 4s. 5d. to 4s. 6d., and to arrive 4s. 4d. c.i.f. is quoted for "Red Ship" brand.

OIL, BERGAMOT, is practically unaltered at primary sources, the market being sustained by a small but regular demand at full prices; for shipment from 16s. 6d., c.i.f. London, and upwards is quoted.

OIL, CASSIA, is easier. Recent sales have been made at from 4s. 2d. to 4s. for 80 to 85 per cent. c.a. on the spot, and to arrive 70 to 75 per cent. is quoted 3s. 4d., 75 per cent. to 80 per cent. 3s. 6d., and 80 to 85 per cent. at 3s. 8d. per lb. c.i.f. terms.

OIL, CASTOR.—Hull make is firmer, first pressing in barrels for July delivery offering at 27l. 10s. per ton, ex wharf London; cases proportionately higher.

OIL, COD-LIVER.—The fishing at Finmarken is now practically over, but has not yet officially been closed. It will be seen that the total yield is about 7,500 barrels below that of last year, in spite of the larger catch. The market for finest non-congealing oil is quiet, sellers quoting 64s. per barrel on the spot and 63s. to 64s. c.i.f. terms. Our Bergen correspondent writes on June 21 that the Finmarken fishing still continues, and, having regard to the advanced season and the few fishermen now left there, the results must be considered pretty good. The statistics are as follows:

	1909	1908	1907
Catch of cod (millions) ...	56	47.7	47.6
Yield of cod-liver oil (barrels)...	43,100	50,600	40,400
Livers for "raw" oils (hect.)...	27,300	25,200	21,400

The market remains quiet at the unaltered quotation of 64s. per barrel c.i.f. terms. The exports from Bergen up to date amount to 6,156 barrels, against 8,100 barrels at the same date of last year.

OIL, LEMON.—A rather better tone has prevailed for lemon, according to a Palermo advice of June 12, but, generally speaking, trade is far from active. It is, however, only the small weak holders who part with their goods, as instanced by jobbing orders which have been executed. Larger holders are not inclined to sell, in the hope of obtaining better figures, and, although prices are unchanged, the undertone of the article may be said to have stiffened. For shipment, from 3s. to 3s. 2d., c.i.f. London, is quoted.

OIL, NEROLI.—One of the largest distillers quotes the new crop at from 14s. to 14s. 6d. per oz., and a shade less for contract quantities, these prices being about 6d. higher than last year.

OIL, PEPPERMINT.—Japanese oil, like menthol, is now much quieter, but prices are steady, with spot sales of Kobayashi and Suzuki at 5s. 5d. to 5s. 6d., and for June-July shipment 5s. 3d. c.i.f. has been paid. Retail sales of American H.G.H. have been made at 8s. 9d., and for Wayne County of good quality 6s. 3d. has been paid, but the general tone of American oil is dull, in spite of the recent activity in Japanese.

OIL (TURPENTINE) has advanced about 3s. on the week, American on the spot closing at 32s. 9d. per cwt.

OLIBANUM.—Sales of fair drop have been made at from 35s. to 37s., and ordinary at 27s., per cwt.

OPIUM.—The London market for Turkey opium is unchanged and slow, buyers waiting definite news in regard to the crop, and the same remarks apply to Smyrna and Constantinople. Persian opium, however, is firmer, owing to the fact that prices in Hong-Kong have advanced about 1s., and a fair quantity is being shipped to that port from London on original importer's account. This has considerably relieved the spot stock, and quotations are now from 12s. to 14s. 6d. per lb., according to test.

A Smyrna correspondent writes on June 12 that, as was foreshadowed, a slight concession has been made, which has facilitated the execution of two orders from the United States, the sales amounting to 37 cases, comprising 32 cases extra Karahissar t.q. at the equivalent of 11s. 9d. and five cases Yerli at 12s. 2d. per lb. c.i.f. European ports. The market closed uncertain, as any speculation just at the moment when prices show signs of giving way would complicate matters. Another correspondent writes on June 12 confirming the above sales, and states that the arrivals of new crop amount to 13 cases against 26 last year, but this disproportion is regarded as temporary. The average yield in those districts where the gathering has already begun is said to be about 25 per cent. to 30 per cent. more than last year. The appearance of the paste is very satisfactory, but the morphine yield leaves much to be desired, and it is doubtful if it will attain that of last year. The sales which have been made week by week give the interior markets an upward tendency, which circumstance is likely to keep genuine buyers off the market. Further advices, dated June 18, state that the sales for the week amount to 11 cases, consisting of three cases selected Karahissar at 12s. 2d. and eight cases "seconds" at 10s. 2d. f.o.b. The three cases Karahissar were bought by a strong holder, presumably on speculation. It is anticipated that such holders will do all they can to maintain the position, and unless Constantinople brings about the inevitable collapse in prices, the present high position may be continued until primary markets are over-stocked with new material. Arrivals to date amount to 37 cases against 39 cases.

OTTO OF ROSE.—Our Bulgarian correspondent, under date of June 17, states that, with the exception of about a dozen rose villages, the highest in the Balkans, the distillation of the rose-crop may be considered over. The weather during the whole harvesting period was generally very favourable, and thanks to it the harvest lasted, on an average, about twenty-three days, or nearly a week longer than last year. The yield of otto was fully 30 per cent. larger. While the yield last year was 1 oz. of otto from about 270lb. rose-flowers, the average yield this year is from 190 to 200 lb. only. The quality of the new otto, too, is very superior, almost as rich as the otto of the famous 1900 crop. As yet it is too early to estimate the total yield of the crop. This will be definitely known in about three to four weeks, when the yield of every rose village is carefully checked and verified. According to the local *on dits*, who seem to know all things in advance, the new crop is fully 145,000 oz., which is about 30 per cent. more than last year's crop.

PEPPER (BLACK).—At auction 570 bags of Tellicherry were offered, and 40 sold at 3¼d. for good heavy. Good bold heavy Mangalore was bought in at from 8d. to 1s. for bold to very bold, and 11 bags of Long pepper were bought in at 25s. Privately a large business has been done for arrival at firmer prices, including 200 tons of Singapore for July-September shipment and August-October at 3½d. to 3¾d., and January-March at 3½d. to 3¾d., c.i.f. The spot prices are steady at 3¾d. for fair.

PEPPER (WHITE).—At auction 25 cases of Singapore were bought in at 9d. for bold washed, and 266 bags were also bought in at 5¾d. to 6¾d. for fair to fine. Privately the arrival market is steady and quiet, with sales of Singapore for June-July at 4¾d., and August-October shipment at 4¾d. c.i.f. d/w. On the spot fair Singapore is quoted 5½d.

PIMENTO.—Firm. At auction 16 bags were bought in at 2¾d. for small dusty. Privately spot is offered at 2¼d., and distant shipment at 20s. 6d., c.i.f.

QUICKSILVER.—The importers have reduced their price by 2s. 6d. per bottle to 8l. 5s.; and second-hands quote 2s. 6d. less.

QUININE remains inactive, quotations being unaltered at 7d. per oz. for good German brands of sulphate, makers

quoting 7½d. An auction of quinine will be held at Amsterdam on July 6, when the equivalent of 50,000 oz. B.P. will be offered.

RHUARB.—The London stock consists mostly of Shensi and rough round High-dried, there being very little Canton and flat High-dried. Good Shensi can be had at 2s. 5d. to 2s. 6d. middling at 1s. 10d. to 2s.; and ordinary, of kiln-dried character, but very fair fracture, 1s. 7d. to 1s. 8d. Canton is firm at 1s. 3d.; flat High-dried is worth 1s. 1d. to 1s. 2d.; and rough round 5½d. to 6d. for fair to good. Arrival business has been extremely quiet this season, prices not being attractive.

SAFFRON.—A fair business has been done at full prices.

SANDARAC.—At auction 52 packages Mogador were offered, and 15 sold at 50s. for ordinary small specky.

SARSAPARILLA.—The arrivals include two lots of grey Jamaica, amounting in all to 54 packages; four of native Jamaica have also arrived.

SHELLAC.—At auction 776 cases were offered, of which practically all sold, chiefly without reserve. Fine Orange was about 4s., and good to fine 1s. lower, second Orange being without change. Fine Orange MI in circle sold at 88s. to 89s.; B.P. superfine, 84s.; G in double triangle, 83s.; finest pure Kushmi, 79s. to 80s.; SS in diamond, 80s. to 81s.; DJ in diamond, 77s. to 79s.; lemon in diamond, 75s.; good to fine second Orange, 71s. to 73s.; blocky ditto, 67s. to 68s.; good Angelos AB, 75s.; TN fair flat reddish, 62s. to 65s.; fair liver free, 56s. to 57s.; and block, 54s. Of Button 175 cases offered and 115 sold at 78s. to 83s. for stamped pure, 81s. for fine pale A1, 74s. for B1 free, 66s. to 69s. for cakey to dark tongues, 62s. to 63s. for resinous No. 2, 55s. to 58s. for good No. 3, 43s. for resinous No. 3, 56s. to 58s. for mixed chips, and 38s. to 40s. for black Kola blocky. Of Garnet 71 cases sold without reserve, including AC blocky at 60s., GAL slightly cakey at 60s., cakey and blocky 46s., and common broken Ralli seconds 30s. to 31s. per cwt. Privately the spot market is quiet at from 66s. to 67s., and for arrival 64s. c.i.f. is quoted for October-November shipment. Futures have been quiet, August being quoted 67s. and December 69s.

TONKA-BEANS are very scarce and firm, Angosturas being almost unobtainable on the spot. To arrive from 4s. 3d. to 4s. 6d. c.i.f. is quoted, according to quantity, and 2s. c.i.f. and spot for black Para.

TURMERIC.—Madras is quiet, with sellers of fair to good finger at from 18s. to 19s. Bengal is also slow at from 18s. 6d. to 19s.; and Cochín sells at 13s. for split bulbs.

VALERIAN has advanced about 2s. to 26s. c.i.f. for foreign, and on the spot 27s. 6d. is quoted.

Heavy Chemicals.

There is really no material change to be reported regarding the condition of the heavy-chemical market, though it is pleasing to state that the steady and firm tone with slightly improving general demand appears to continue. Demand against existing contracts is fairly regular, and on the whole satisfactory. In the Tyne district this week matters are on the quiet side owing to the annual race-week holidays, and works being closed for the whole week will mean some reduction in stocks. Prices rule practically unchanged and for the most part steady.

SULPHATE OF AMMONIA.—This market is rather steadier, and since there has been a better demand, with supplies somewhat on the low side, prices are slightly higher. There seems a prospect of supplies being required for Japan, in which case the market should still further improve. Present nearest figures are Beckton prompt 11½ 7s. 6d., Beckton terms 11½ 1s. 3d., London 11½ to 11½ 1s. 3d., Leith 11½ 7s. 6d., Liverpool 11½ 3s. 9d., and Hull 11½ 2s. 6d. Makers' ideas of prices for delivery up to the end of the year are from 11½ 7s. 6d. to 11½ 10s., with buyers more in the neighbourhood of about 11½ 5s.

BENZOLS of both strengths have slightly improved and prices are rather steadier, ranging now about as follows: 90-per-cent. 5½d. to 6½d. per gal., and 50-per-cent. 6½d. to 7d. per gal., according to market.

RECOVERED SULPHUR is in good average request, with price on the steady side at from 5½. to 5½. 5s. per ton in 2-cwt. bags.

ALUMINA PRODUCTS are a fairly steady market, both as regards prices and demand. Crystalline alum lump, 5½. 5s. to 5½. 12s. 6d.; lump in tierces, 5½. 10s. to 5½. 17s. 6d.; and ground in bags, 5½. 15s. to 6½. 2s. 6d. per ton on rails Lancashire and Yorkshire or f.o.b. Hull, Goole, or Liverpool. Sulphate of

alumina, purest qualities and practically free of iron, ordinary strength, 4½. 12s. 6d. to 5½. 2s. 6d. per ton, delivered in usual casks with customary extras for similar pure quality in higher concentrations and ordinary allowances for bags and loose slabs. Alumino ferric 50s. to 57s. 6d. per ton, and aluminous cake 50s. to 57s. 6d. per ton, according to quality, quantity, and condition. Hydrate of alumina, purest quality and highest strength, Al₂O₃, 12½. 10s. to 13½. 10s. per ton in large casks free on rails. Special pulp hydrate of alumina, 15s. to 17s. 6d. per cwt. c.i.f.; special pulp quality, dried and in lumps, 37s. 6d. to 40s. per cwt. c.i.f., and ground 38s. to 40s. 6d. per cwt. Aluminate of soda, purest quality and high strength, Al₂O₃, 27s. 6d. to 30s. per cwt. Carbonate of alumina, 32s. 6d. to 35s. per cwt.

Manchester Chemical-market.

June 22.

At the opening of the month, owing to the close of the Whitsuntide holidays, business was exceedingly quiet, and there was little or no movement in heavy chemicals. Towards the close, however, there was a better feeling, not so much perhaps for home consumption as on export account. A satisfactory feature, so far as this district is concerned, is the growth in quantities from the consular district of Manchester to the United States. There has been little or no change in quotations of heavy chemicals on spot. White caustic soda, 77 per cent., ranges from 10½. 15s. to 11½. per ton, and bleaching powder 4½. 5s. to 4½. 10s. per ton, softwood casks, on rails. Bicarbonate of soda has ruled at 4½. 7s. 6d. per ton, and industrial bicarbonate, white 3½. 17s. 6d., and tinted 3½. 7s. 6d. per ton, all on rails at works. In miscellaneous goods the most noticeable decline has been in sulphate of copper, which, owing to the decline in the raw metal, is about 10s. per ton lower. For forward delivery, however, say August and September, about 20½. per ton is asked. Borax remains steady at 15½. 10s. to 16½. per ton. In acids there is by no means the demand usual at this season of the year. Citric is about ½d. per lb. lower on the month for both English and foreign, tartaric is fractionally lower, but oxalic closes firmer. Cream of tartar shows little change. White powdered arsenic shows a decline of 10s. per ton on the month. Lead products are rather dearer, but business is by no means brisk. Zinc salts are also higher. Brown acetate of lime was about 5s. per ton higher. Coal-tar products throughout have been quiet. Sulphate of ammonia has been rather variable. Carbolic acid crystals are fractionally higher, but crude shows little change. Benzols (50's) are firmer and in sellers' favour. Creosote is very steady.

American Drug-market.

New York, June 15.

Business in drugs continues of a light routine nature, with small sales for immediate needs constituting the main part of the turnover.

ALOES.—There has been a steady demand for case Curaçao, but with a plentiful supply on hand values are barely steady at 6½c. Cape is worth 8c., as formerly.

CANADA BALSAM continues scarce on spot, but supplies are now available at primary sources, and local dealers are offering at a reduction of 50c. to \$7 per gal. and \$7.10 for barrels and cans respectively.

CASCARA SAGRADA.—Inquiry continues slow, and old bark is obtainable in moderate quantities at a shade less than 8½c. New bark is being offered from the coast at a price approximating 7½c. c.i.f. New York. The new crop is expected to be less than that of last year, but the carried-over stock is considerable.

COPAIBA.—C. and S. American is in good request, but the market has been well supplied by recent arrivals, and 45c. will buy U.S.P. goods. Pará is easy at 50c. to 60c., according to quality.

JALAP.—A small consignment which arrived during the week is said to be the last obtainable at primary sources this season, and with the local market poorly supplied prices continue firm at 45c.

MANDRAKE.—The collection of new crop is now in progress over all the producing area, and a good yield is expected. Spot stocks are low, but, in anticipation of plentiful supplies, prices are easy at 7½c.

HYDRASTIS is dull and neglected at \$1.80 for fall-dug. Lower prices have been named for country stocks, and the spot market is easier in consequence.

MENTHOL is scarce in the local market, and following sales of case lots at \$2.12½, dealers advanced prices to \$2.25.

OPTUM is in poor demand, and while \$4.25 is usually quoted for case lots, sales below the market are spoken of. Jobbing parcels are offered at \$4.30.

PEPPERMINT OIL (AMERICAN) is in unchanged position on spot, where \$1.45 to \$1.50 is asked for jobbing quantities. Country markets are reported steady.

SENEGA is in fair demand and steady at 43c.

TO CORRESPONDENTS.—A letter for publication should always be a distinct communication; nothing else should be mixed up with it. Each query—no matter whether legal, dispensing, or general—should stand by itself, and the paper upon which it is written should always be backed with the shop stamp. We do not undertake to reply to queries by post. Write clearly and concisely on one side of the paper only. All communications should be accompanied by the names and addresses of the writers. Publication of letters does not imply our agreement with them. Letters received after Wednesday morning cannot as a rule be dealt with in the current week's issue.

BUSINESS INFORMATION.—We supply by post (when a stamped and addressed envelope is provided) information as to the makers or agents for articles connected with pharmacy and the chemical and drug trades. Inquiries regarding any articles which cannot be traced are inserted under "Information Wanted."

Chemists and Spirit-duty.

SIR,—I would beg of my fellow-chemists to act, and at once, upon the suggestion contained in Mr. Symes's letter in your issue of June 12. The "Daily Chronicle" stating that "only luxuries were to be taxed," I wrote the Editor asking if he considered medicine a luxury, giving my reasons against the tax, and showing how a rebate could be allowed on production of "permit." Of course, there would, as in other cases, be a heavy penalty for abuse. My letter was given first place, and the Editor put a footnote that the Chancellor of the Exchequer was willing to consider the case of chemists. I may say, too, that, knowing a gentleman who is having much to do with the Budget, I made it my duty to see him, explaining the position of chemists and the way out of the difficulty. He saw our case, and at his suggestion I put it in writing, he kindly promising, as he was seeing Mr. Lloyd George frequently, that he would put my letter before him and before the Chairman of the Inland Revenue. But unless chemists wake up, writing their members with particulars, as Mr. Symes suggests, the matter will go by default, and we shall deserve our fate. The wholesale people are well secured, and will make a profit at our expense, for they can pass the duty, and more, on to us.

Faithfully yours,

LIBERAL. (84/36.)

The Sale of Benzine.

SIR,—We have been informed to-day by the Revenue authorities that a licence of 5s. must be taken out for retailing benzine, which is described by them as a motor-spirit. As this licence will be practically prohibitive to most chemists, who sell benzine only in very small quantities, we would suggest that the drug-trade should endeavour to obtain a concession to retail it in quantities of one pint and under without a licence. This concession would be a parallel to the privilege now held by chemists to retail rectified spirit of wine for certain purposes in quantities of a quarter of a pint or less. We should be glad if you would invite trade opinion upon the matter, and promote prompt action, if such is desired, for the benefit of our much-licensed trade. To encourage us to take out the licence we are advised that many chemists pay the 10s. licence to sell 5 gals. of methylated spirit per diem. Apparently a like folly is expected of us in further directions, as this seems to us a case of *reductio ad absurdum*.

Yours faithfully

W. M. (83/50.)

[We think there cannot be two opinions on this matter. See the note on p. 980.—EDITOR *C. & D.*]

Ilford Photo Prices.

SIR,—We should be glad if you would allow us to say, in answer to your correspondent "Celt's" letter on page 963 of your issue of June 19, that the prices of Ilford photographic plates and papers may not be cut. Our

goods are only supplied to customers who sign the agreement form, of which a copy is enclosed, which pledges them not to cut prices, in accordance with our rules, copy of which we also enclose.

Supplies are immediately stopped when our attention is called to any breach of these regulations. We have always held that the chemist who stocks our manufactures is entitled to reasonable profits, and have, we think, arranged to secure such profits to him with fair success. We are at all times grateful for any information with regard to price-cutting, and take steps either to stop the practice or to cut off the supplies of any houses that persist in cutting after having been asked to discontinue.

Yours faithfully,

Ilford, London, E.

ILFORD, LTD.

[The agreement received embodies the following conditions: (1) Not to sell any photographic plates, films, or papers manufactured by you retail at prices below those published in your price-lists. (2) Not to sell any such goods to professional photographers, otherwise than in accordance with your rules. (3) Not to sell any such goods to any dealer, or dealers, without printing on or attaching to our invoice for such goods, conditions as below. Conditions of Resale.—The goods included in this invoice are sold to the trade and discount allowed thereon, on condition that they are resold on the following terms: (1) Only retail, or to the profession, and on the following conditions: (a) Retail, not under the prices published in the manufacturer's current price-list; (b) to the profession, in accordance with the manufacturer's rules. (2) That plates, films, and papers shall be sold only in original sealed packages. Your acceptance of these goods will be treated as an acknowledgment that they were sold to you on these terms. If you do not agree please return the goods at once.]

Joint Proprietaries.

SIR,—To quote from the speech of a man is usually to do him an injustice, and Mr. Edwards's tirade in the *C. & D.* of to-day's date is no exception to the rule. The U.C.A.L. is promoted with the object of assisting chemists at just those points where the individual is more or less unable to help himself. Instead of destroying individualism, it would be helpful and supplementary to it. Its primary object is the introduction of a set of proprietaries to compete with those we are now compelled to sell at microscopical profits: everything else is subordinate to that, and the proposed system of representation on the management, committees, etc., would give to members a much greater voice in the direction of the Association than is common in joint-stock companies. In an age of co-operation and collectivism, I am at a loss to understand why some chemists should be averse to a combine of forces to meet competition. I recently read the report of a German wholesale pharmaceutical co-operative association, which showed excellent results; why should not an English one succeed? Why Mr. Edwards should treat the vending of lime-juice with such levity I do not know. What I said was that a number of lines (among them being lime-juice), which twenty or thirty years ago were chemists' lines, had passed or were passing (*e.g.*, salines, etc.) into the hands of the grocer, and that this process would in the future most certainly be accelerated. To this I adhere. Speaking of the — preparation, Mr. Edwards misquotes me. I may have replied, "Certainly, if we think fit," but the only circumstances in which the Association would "think fit," I take it, would be if it saw the thing being cut to death. It is not the purpose of the Association to compete with the retail chemist, but to assist him, and it would not be incumbent upon him to cut out his own preparation for the Association articles; though, in the case of lines having a small sale, it would pay him to do so. If he has a preparation having a large sale, he would naturally expect to maintain it. I am pleased to see that Mr. Edwards recognises that we are serious, and if any chemist, not already possessing one, will apply for a circular giving the names of the members of the Executive Committee, he will see that it is composed of level-headed business men, some having from two to five shops. Why Mr. Edwards should imagine that the Association should fail after five or six years of working is a conundrum to me. Would he have started in business, or would any joint-stock company have been floated, if such a hypothetical consideration had been entertained? It is generally conceded that, if successfully

started, a great future is in store for this Association, and I may say that the minimum amount on which it was decided at the London meeting to proceed to allotment is in a fair way to be much exceeded. I am sorry to see Mr. Edwards has such a bad attack of the "jumps," but I can assure him that this is no German airship, it is merely a "ballon d'essai" to gauge the direction and force of the current of feeling and that his feeling is duly noted.

Yours faithfully,

Bingham, June 19.

CHAS. C. H. CADGE.

[We have received other letters on this subject, but, our space being crowded this week, we have selected Mr. Cadge's for publication, his remarks having been the basis of Mr. Edwards's criticism.—EDITOR *C. & D.*]

Dispensing Notes.

An Iodine Spray.

Subs. (180/22) says the following prescription seems to give trouble, as customers tell me that they hardly ever get it dispensed in two different places alike. What is the proper method of procedure?

Iodi	gr. x.
Potass. iodid.	gr. xx.
Menthol.	gr. xx.
Parolein. ad	3ij.

Fig.: The throat paint.

[(1) Powder the iodine and dissolve it in 1 fl. dr. of oleic acid; dissolve the menthol in about 1½ fl. oz. of paroleine, and mix the two solutions. Then powder finely the potassium iodide, rub it up with the mixed solutions, and add paroleine sufficient to make 2 fl. oz. Send out with a shake-the-bottle label. (2) Dissolve the iodine in oleic acid and the menthol in paroleine as above, mix the two solutions and add enough paroleine to make up the prescribed quantity. Omit the potassium iodide. Potassium iodide does not dissolve in paroleine. The prescriber had in his mind, no doubt, the usual paint with glycerin as the solvent. In this case the potassium iodide is used to aid solution of the iodine, and as it is only prescribed for this purpose we do not think there is any good in retaining it when paroleine is the basis. If you know the prescriber you should mention this to him.]

Legal Queries.

Ph.C. (22/6).—There is no law to prevent you using local anæsthetics in tooth-extraction. Please note to address future inquiries to the Editor.

C. E. (82/39).—If the religious body to which you refer obstructs the traffic and proves a nuisance, you should communicate with the superintendent of the local police. It is a matter controlled by the local authorities and their by-laws.

Camb's (85/32).—You will find in our *Diary*, p. 240, the particulars you require. The regulations were published nearly two years ago. The sensitiveness is not usually regarded as being too subtle; if scales in use do not work within the limits they should really be seen to.

F. W. S. (84/41).—Your scales should be verified and stamped by the local inspector according to the regulations (see our *Diary*). You do not tell us what your scales are, but the best way to ensure yourself that they are right is to submit them for inspection.

Statine (85/6).—(1) You cannot sell proprietary powders singly without a stamped-medicine licence. (2) Information regarding limited companies may be obtained from the Registrar of Companies at Somerset House, London, W.C., and in respect to registered names of proprietary articles from the Registrar of Trade-marks, the Patent Office, Chancery Lane, London, W.C. Fees are payable in each case.

Old Fogey (83/90).—The Coroner was wrong in saying that in selling potassium cyanide it should be put in a poison-bottle. That regulation applies solely to liniments, embrocations, lotions, and liquid disinfectants containing poison. We cannot correct, and only occasionally comment upon, coroners' errors, which in most cases are apparent to our readers.

M. J. (85/5).—The use of the words "sore feet" in connection with foot-powders is inadvisable, unless the article is to be stamped. The Board of Inland Revenue appear to regard the word "sore" as being ambiguous—it may either describe an ailment or simply a condition of fatigue, as in the case of "clergyman's sore throat," where it is necessary to qualify the words by adding "due to over-straining of the voice." A qualification in respect to "sore feet" seems also to be necessary, but is so difficult to formulate that it is better to stick to "tender feet"—an expression to which the Board have no objection.

F. S. E. (83/49).—(1) The description "teeth specialist" used by a person not registered under the Dentists Act may be an offence under Section 3, irrespective of the decision in *Barnes v. Brown*, which was regarding the term "painless extractions," as to which the Court of Appeal is of opinion that the use of that by unregistered persons is not illegal. (2) If a family recipe prescribing tincture of opium among other ingredients is made up by an unregistered chemist (or any other retailer) without the tincture, he infringes Section 7 of the Sale of Food and Drugs Act, 1875, which makes it an offence to sell any compounded drug which is not composed of ingredients in accordance with the demand of the purchaser. It is immaterial whether the recipe is a family one or a medical practitioner's.

W. G. (79/15).—The matter described is one for mutual agreement rather than litigation. Your refusal to accept delivery of goods ordered and executed will be difficult to justify, and indicates annoyance which may have been due to reasonable cause; but, having ordered goods without stipulating time of delivery, you must be prepared to prove that the delivery was contrary to custom, or in some other manner convince a judge that your grounds for refusing to complete your contract are reasonable. The wholesale house was remiss in paying no attention to your repeated letters and telegram, and you have a reasonable claim upon them for the expenses which you have been put to by the delay, including perhaps the fees charged by the doctor for calls in connection with the surgical instrument.

Tenancy (85/1) puts the following query: A takes a fourteen-years' lease of a chemist's shop, and in three or four years sells the business to B. No fresh lease is made out. B agrees to take over the remainder of the lease, A still being responsible to the owner if B defaults. In a year or two B sells the business to C, and again no fresh lease is made out, C agreeing, as B did, and A still remaining responsible to the owner if B and C default. A has since died. Does his death cancel the lease and C's obligations in respect of same? [Assuming that B and C got assignments of the lease from the landlord, the obligation of carrying out its terms rests with A's trustees and the assignees. C should watch the matter very closely, and be guided by a local solicitor, especially with the object (if he desires a continuance of the tenancy) of being placed on a secure footing.]

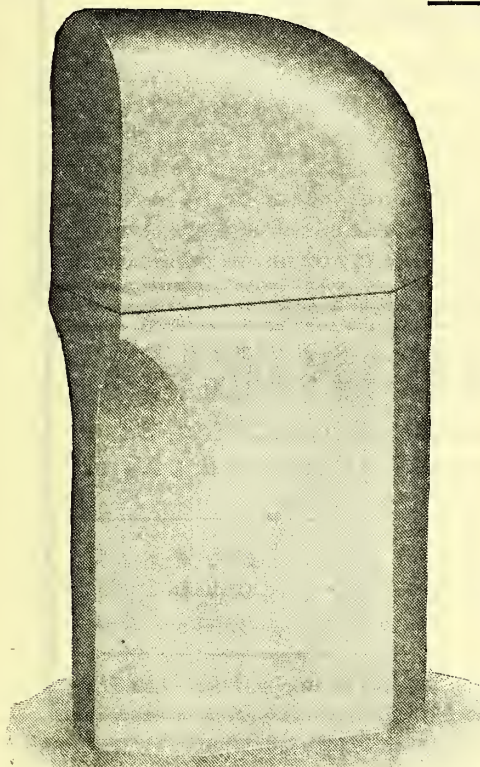

L. J. T. (73/13).—There is no doubt that the Commissioners of Inland Revenue have correctly stated the law, and that you have no legal right to claim repayment of the inhabited-house duty paid by you in respect of your lock-up shop, unless you make the claim within the year of the assessment, when your claim can only be allowed for that year, provided the local assessor certifies to the local Surveyor of Taxes that your trade premises are exempt. If you, thereafter, continue to occupy premises which you consider are exempt from the duty, you must, if again charged, make another claim each year. Usually, after your claim has been allowed once, the assessor will not put you to the trouble of claiming, if he is satisfied that you continue to be exempt; but whether he does so or not it is necessary for the Surveyor of Taxes to receive from your assessor a certificate each year that your shop is not chargeable to the inhabited-house duty. You do not appear to grasp the principles on which British tax laws are based. In your particular instance they may be generalised thus: Every house, shop, etc., is deemed to be a dwelling-house, liable to inhabited-house duty, unless the occupier proves to the satisfaction of the local Government official that his shop, etc., falls within a legally exempted class. You will, of course, perceive that an army of officials would be required if the burden of proving liability to the duty in each case were imposed on the official. We are glad that you found the information in the *C. & D. Diary* put you on the right track, and trust that this will result in your escaping the duty if you make a yearly claim.

Miscellaneous Inquiries.

Institution (68/63).—The second recipe for NURSERY HAIR-LOTION in "Pharmaceutical Formulas" is ideal for the purpose you indicate.

F. M. V. (63/29).—REMOVING IRON FROM WELL-WATER.—To rid water of dissolved iron is not an easy matter. A method which has been tried with success with a ferruginous well-water is to facilitate the escape of the carbon dioxide which holds the iron in solution by storing the water and then running it through boxes of gravel. The gravel can be regenerated, when it loses its efficacy owing to the coating of iron oxide, by treatment with very dilute mineral acid. This method is far preferable to the treatment with alkali (sodium carbonate), especially in your case for water used in a fish hatchery.

Holiday and Travelling Season.

Now is the time to offer to your customers these elegant and very convenient

Odol-Flask Cases

which are supplied in three grades, all high-class British make, at the following retail prices :

	Large size.	Small size.
SOLID SILVER	34/- each.	24/6 each.
SILVER PLATED	6/- „	4/6 „
NICKEL SILVER	4/- „	3/- „

Particulars of Special Discounts on application.

All users of Odol will appreciate the attention of the Chemist in reminding them of this exceedingly handy travelling case, which prevents the Odol from coming into contact with other articles in the dressing-bag or trunk in the event of accidental breakage of the flask.

SPECIAL OFFER.

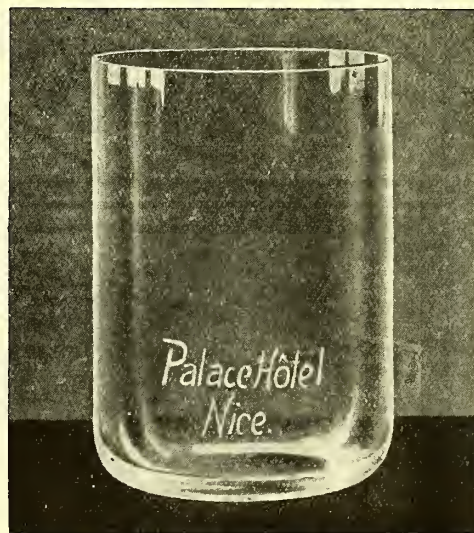

To assist our friends in further increasing their Odol sales we have decided to supply our **ODOL TOILET TUMBLERS**, which during the last three years have been largely adopted, having met with a remarkable reception by the public,

at **6/- for 64 Tumblers**

etched with name and address of customer.

This means that we are supplying the Odol Tumblers gratis, and charging only the actual cost of etching and packing.

Many Chemists have acted on our suggestion of sending the Odol Tumblers to their customers, and supplying them free to the best Hotels, Boarding Establishments, etc., in this way advertising their own name and business amongst the most influential buyers in their locality.

Name, address, &c., of customer in any approved style of lettering will be etched on the Odol tumblers.

UNGUEMOL

(REGISTERED)

A fatty Ointment-basis, miscible
with water in all proportions.

The introduction of Unguemol marks a new era in galenic pharmacy. It is a translucent, bland fat, which is readily absorbed, and which on removal leaves the skin smooth and supple.

The ease with which Unguemol combines with water is demonstrated by applying a little to the back of the hand, adding simultaneously water, drop by drop. A cream will gradually form, and this may be entirely rubbed in, or completely washed off with more water.

The unusual property of forming a *natural* emulsion with water or dilute alcoholic liquids pre-eminently adapts Unguemol for general use. No other fat possesses this unique property of combining directly with water. It enables quite a small amount of ointment or liniment to be applied over a large area, while should excess be used and soak into the under-clothing, it may be easily washed out again.

For the preparation of creams in which advantage is taken of the cooling effect due to evaporation, Unguemol is unrivalled. Water or spirituous liquids may be incorporated to any extent; in fact, if the liquid is added by degrees, Unguemol may be diluted to the consistence of a thin milk.

G. T. CONGREVE, Coombe Lodge, PECKHAM, LONDON, S.E.

BRUNNER, MOND & Co.'s

Alkali
Products.

Crescent
Brand.

These products are made by the Ammonia Process, and are distinguished from others by their great purity.

Bicarbonate of Soda.

This Bicarbonate answers all the requirements of the British Pharmacopœia. It is a pure, refined, and recrystallised salt, particularly free from metals or any base other than soda.

This sodium bicarbonate is specially suitable for the preparation of granular effervescent preparations and salines, seidlitz powders and baking powders, and is well adapted for other medicinal and domestic purposes. It is the purest and cheapest sodium bicarbonate made.

Concentrated Crystal Soda.

This sodium compound (sodium sesquicarbonate) is a variety of carbonate of soda in small silky crystals, containing much less water than ordinary washing soda; 1 lb. of it does the work of 2 lbs. of washing soda. Concentrated crystal soda is excellently suited for chemists' trade; they can make a speciality of it, and it is also suited for making water-softeners, brush powders, hair-wash powders, and the like.

Pure Alkali. 58 Degrees.

A dry white powder; dissolves quickly and easily in water, making an excellent detergent for use by printers, bleachers, dyers, and for bottle washing. Is nearly equal to 99 per cent. carbonate of soda; is much used by glass, paper, and soap makers. The best alkali for soap powders and washing powders.

Pure Soda Crystals.

NOTE.—Proceedings have been taken by the Board of Trade against a person for selling as Soda Crystals an adulterated article, and the High Court has upheld the conviction. See the case of **FOWLER v. CRIPPS**, heard on 8th November, 1905, before a Divisional Court, consisting of the Lord Chief Justice, Mr. Justice Wills, and Mr. Justice Darling.

Caustic Soda.

Bleaching Powder.

Manufactured from pure Carbonate, and supplied of all degrees of strength.

Retailers can obtain these products through any Wholesale house by specifying Brunner, Mond & Co.'s "Crescent" Brand. The Manufacturers supply wholesale quantities only, and will quote on application to

PIONEERS IN 1870 OF CHEMISTS' OWN NAME SPECIALITIES.

A selection from a few Customers' Opinions, bona-fide and open to inspection.

FROM A LONDON CHEMIST: "I should like to let you know how pleased I have been with the various products of your firm sold by me during the year. One doctor in this district is continually sending patients for the Emulsion. I am hoping in the future to do considerably more with you."

FROM A CHEMIST IN SCOTLAND: "I am immensely pleased with the Specialities I had from you. In price, get-up, and quality your goods are A1."

A CHEMIST, BALLYMENA, IRELAND says: "Your Chemists' Own Name Specialities are the best I have seen."

FROM A CHEMIST IN THE MIDLANDS: "With your goods we can beat Boots' and the Stores."

FROM A CHEMIST, LONDON, S.W.: "Since stocking your Specialities we can hold our own against any Company. The lines you have got up for us have been distinctly successful."

A TRANSVAAL CHEMIST writes: "... Messrs. ——— & Co.'s traveller is here, and finds to his annoyance your goods all over the place. However, I can honestly assure you that ten times more of yours than of their goods can be sold."

FROM THE COLOMBO PHARMACY, CEYLON: "Your Eczema Cream is doing wonders here, replacing all other specifics. I got three grocs of it through ——— in July last, and am nearly out. Am just sending you another order."

A CHEMIST, SHREWSBURY, says: "Your Specialities are undoubtedly the best in the World."

YOUR INQUIRIES WILL BE ESTEEMED.

QUALITY IS OUR SLOGAN.

ICHTHYOL

WE warn buyers that fraudulent and ineffective articles purporting to be Ichthyol, or "equal to Ichthyol," are offered by unscrupulous dealers.

Genuine Ichthyol, as it has been studied and is wanted by the Medical Profession and supplied all the time to the Trade, is delivered by us in tins and bottles under our special label with our name. The use of our registered trade mark "ICHTHYOL" for any other product means deception and dishonesty, and will entail their penalties.

Physicians, Chemists, and Druggists are requested to report to us all cases where imitation products are suspected.

NOTICE.

MILK EMULSION.

THE name "Milk Emulsion" is our Trade Mark for an Emulsion of Cod Liver Oil with Hypophosphites, and designates specifically that it is our preparation. Our Emulsion is known in commerce as "Milk Emulsion," and when "Milk Emulsion" is ordered people expect to receive FAULDING'S MILK EMULSION. We hereby give notice that no other persons can use the same name on their labels, wrappers or advertisements without infringing our legal rights.

"Milk Emulsion" is sold in Bottles only, Wholesale, by—

F. H. FAULDING & CO.

54 Great Tower Street, London, E.C.

54 King William Street, Adelaide, South Australia.

341-3 Murray Street, Perth, Western Australia.

16 O'Connell Street, Sydney, New South Wales.

ESFON

The
Nerve
Food.

C. J. BURT,

12 & 13 Henrietta St., London, W.C.

PAROUBEK'S
... PATENT ...
"FOLDO"
FINGER STALLS.

WE beg to draw your attention to the increasing popularity of these Finger Stalls, which are now being made in Black and Brown Leather and Waterproof Cloth. The fact that they are so easily adjusted to fit over a bandage of any size, and always have a neat appearance, has been the means of ensuring them the ready sale which they undoubtedly deserve.

Since their introduction by us, at the beginning of 1907, the sales have steadily progressed, and we find that this Finger Stall is rapidly superseding the older forms in chamois leather and silk, which, however well made, can never fit as accurately, or look as neat, as does the "Foldo."

OBTAINABLE OF ALL WHOLESALE HOUSES.

Sole Agents for the United Kingdom and all Colonies (except Canada):

KHAKI Coloured ELASTIC HOSIERY.

Something New for the Summer Season.

IT LOOKS WELL.

SELLS WELL.

WEARS WELL.

This new colour was originally made up for wear by athletes, cyclists, &c., who find it preferable in many ways to white, but we find that wherever shown it has commended itself to all classes of wearers of elastic hosiery, and has been sold freely by every chemist who has stocked it. It is somewhat cheaper than the ordinary white article, but is not in any way inferior either in the quality of the elastic or the cotton, while it is much less easily soiled. In order to induce chemists to stock a range of sizes we are offering a specially low price for purchasers of not less than one dozen pairs at a time. Try a sample pair—money back in full if you do not like them.

NOTE THE LOW PRICES.

KHAKI coloured cotton elastic Stockings , sizes 1 to 8 ...	per pair	2s. 6d.
	per doz. pairs	27s. 0d.
KHAKI "coloured cotton" elastic Knee Caps sizes 1 to 8 ...	per pair	1s. 9d.
" " " " " " " "	per doz. pairs	18s. 0d.

N.B.—Out sizes and Specials are not made in this colour.

5 per cent. discount allowed for prompt cash off above and all List prices.
Carriage paid on orders of £2 and upwards to any town in the United Kingdom.

We are the right House for Anti-Rheumatic Rings, Belts, Catheters, Enemas, Hot-water Bottles, Injection Syringes, Pessaries, Sponge Bags, Trusses, Water Beds, Water and Air Cushions, Water-proof Sheeting, and every description of India Rubber Goods.

OUR GOODS ARE RIGHT AND PRICES LOW.

BURGE, WARREN & RIDGLEY, LIM., 91 & 92 GT. SAFFRON HILL, LONDON, E.C.

POULTICES SUPERSEDED by using

Spongio Piline

(THE ORIGINAL MARKWICKS").

Beware of imitations made from inferior materials now being offered to the Trade. The advantages are greater comfort and retention of **warmth** and **moisture**. It can be washed and re-used as often as required, and obviates all the trouble of the old mode of poulticing and fomenting.

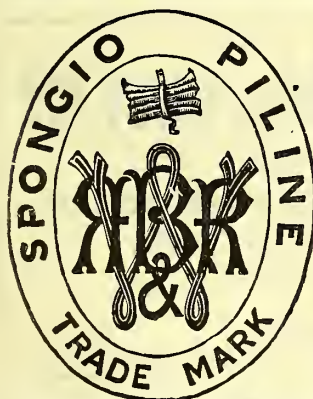

DIRECTIONS.—Simply soak it in the Water or Lotion, and apply the moist Spongy surface.

IMPERMEABLE PILINE

For Rheumatism, Promoting Perspiration, and for the application of Stimulating Liniments.

ANTISEPTIC, WATER AND SPIRIT PROOF. Reduction in price.

Manufactured only by **R. R. WHITEHEAD & BROS., Ltd.**, 10 Endell Street, London, W.C.
Telephone—No. 9116 CENTRAL. Telegraph Address—"WANDELT LONDON."
To be obtained from all Wholesale Houses. Enquiries should be marked "Desk G."

SELL AT SIGHT.

Now on the P.A.T.A. 4/- per dozen, 46/- per gross. Retail, Face Value, 6d. per pair.

JOHN MORGAN DAVIS & SONS, 89 Bishopsgate Without, LONDON, E.C.

ESTABLISHED 1838.

DAYOL'S HOUSEHOLD SYRINGES.

Recommended by the Medical Fraternity.

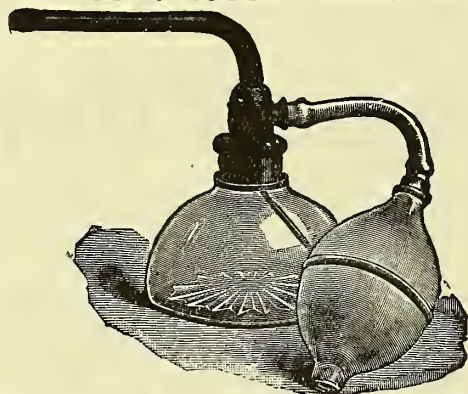

Made of Pure Rubber with Hard Rubber Pipes. Are conceded to be the best, cleanest, and most perfect Syringes on the market, as they have no screw threads or washers to get out of order and thus become defective; nor any metal fittings to become corroded, and which are so dangerous in use.

The Valves are secured and cannot be lost, therefore ensuring efficiency at all times.

DAYOL'S MAGIC ATOMIZERS.

CONTINUOUS SPRAY.

For the Toilet; also for Throat and Nasal Applications, and employment in the Arts. **Made with Metal and Hard Rubber Tubes.** Are unequalled for Quality, Efficiency, and Durability, great care being taken in their manufacture to have a first-class instrument in every respect.

We Manufacture a Complete Line of FOUNTAIN
and BULB SYRINGES in the various grades,
AND

Fine Rubber Goods Generally
